

LITTLE SALMON RIVER
WATERSHED
COLLABORATIVE

September 13th Zims Water Quality Symposium

DATE September 13th, 2022

TIME 10:00am-2:00pm MST- Please show up at 9:50 am so we can start at 10 am.

LOCATION Zims Hot Springs, 2995 Zims Road, New Meadows, ID 83654

Background: The purpose of this symposium will be to get landowners in the Little Salmon Watershed together with state, county and federal agencies to discuss restoration potential and grant funding opportunities to improve water quality. There will be booths set up by these agencies for those wanting to learn more about what they can offer.

Note; We will provide drinks and lunch from the Intersection BBQ, bringing a side or desert is appreciated but not necessary.

SCHEDULE

10:00 – Introductions and discussion on the symposium

10:10 – Brian Kennedy (University of Idaho, Professor of Fish Biology and Ecology) will discuss the Little Salmon River system and potential restoration ideas to improve water quality

10:40 – Questions and discussion

11:00 – Discuss agency booths- who is represented and an overview of their agency

12:00 – Lunch at Zims, a chance to eat together and have informal discussions

12:45 – Short walk to the Tribes Zims planting project, planting demonstration and discussion. We hope ranch owners who have done similar planting will join and share their lessons learned.

1:10 – Time to meet with state, county and federal agency folks to discuss restoration and grant potential (booths will be set up by Bureau of Reclamation, Idaho Department of Environmental Quality, Natural Resource Conservation Service, Adams Soil and Water Conservation District ...)

1:50 – Quick discussion to end Water Quality Symposium

2:00 – Adjourn

Next Little Salmon Collaborative meeting is October 11th, at the New Meadows Community Center from 11 am- 3pm MT.
